RELEASE OF A MURDERER. - David Peoples, as the readers of this paper may remember, some weeks ago killed an unknown man on the steamer James Montgomery, just above Memphis. He was placed in prison bere to await a requisition from the Governor of Tennessee, the crime having been committed in the inrisdiction of that State. His counsel attempted to harry the thing through by getting him off yesterday, but the jailor declined charging him until the last minute, which was at 12 o'clock last night. He then bade him walk forth a free man. Peoples murdered the man in cold blood, and the passengers were with difficulty restrained from lynching him at the time. It is unfortunate that be should go unwhipt of justice, but the sole blame rests with the artborities of our sister State. Our officers of justice did

A NEGRO SHOOTS AT A BARBER.—Sam, a slave of Dr. Ewing, created some excitement yesterday evening, by shooting at Cowan, a barber, on Main street, above the Hotel De Raine. From excitement, and little knowledge of the use of fire arms, Sam's nerves were unsteady, and bis prices. But it scared the barber till he was pale as a white man. The latter, it seems, bad a child of Sam's bound to him, and treated him cruelly. Sam consulted with his former master, who advised bim to take the boy away, and let the barber sue. He took his child home, and the barber got a policeman to put the little boy in jsil. This so exasperated the father that he made the attempt on the barber's life. Sam was taken to jail, and his master, Dr. Ewing, had bis child released.

The Black Republican Know Nothing Cry of The Lexington Statesman-Setting Right all Extravagance, &c.

The Know Nothings and Black Republicans, under the general name of Opposition, are crying out lustily, all over the country, against the extravagance of Mr. Buchanan's administration .-They forget that they voted for all the appropriations of the public money that have been made by Congress, and that they did their best to spend more. Had they have had their own way, they would bave run the nation into debt deeper than ever was thought of by the Democrats. It was the Democracy who prevented these extravagant fellows from bankrupting the nation.

The appropriations made by the last Congress to meet the expenses of the Government for the present fiscal year, with the exception of the Postoffice Department, which was not provided for, amounted in the aggregate to but little over \$41. 000,000. They were as follows:

1,047,745 00 Army.....Legislative, executive, and indicial Naval 10,527,163 55 Supdry civil 3,169,003 27

OTHER APPROPRIATION BILLS. To provide for lighting gas Four and a half, Seventh and Twelfth streets. To provide for paying expenses of investigating committees, house of Representatives.

Mail steamers, 341,229 16

\$41.130.194 53 Now, bow does this appropriation compare with the first one made under President Fillmore, the Pontifex Maximus of the Know Nothing part of the Opposition worship? It will be seen by reference to the records that the appropriations for 1851, when our population was less and our wants fewer, amounted in the aggregate to \$42,507,

And how does it compare with the appropriation for the year 1856, when the Know Nothings and Black Republicans combined and elected Mr. Banks, an Abolitionist, Speaker of the House of Representatives? It will be seen by reference to the records, that the appropriations of the Opposition Congress amounted in the aggregate to the good round sum of \$71,144,623 62 It must be stated, moreover, that this Opposition Congress, this Congress in which the Know Notbings and Black Republicans, by uniting, bad the power to do whatever they wanted, absolutely voted for the spending of \$11,000,000 more of the public money than was asked by all the departments of the Federal Government. And they tried their best to appropriate still more than this, but were prevented by a few of the best ones of their own party going with the Democrats against some of their schemes of wholesale plundering. These are facts which the records justify us in stating without reserve.

Aud in addition to this, the next Congress had to vote a deficiency of \$4,194,416 30, to make this appropriation of more than seventy-one millions foot the bill that the Opposition created when they elected the Black Republican Banks Speaker .-The two appropriations together, therefore, make np the sum of \$75,339,039 92. We know of this nuch of the spendings of the Opposition Congress that elected Banks Speaker; but how much more they plundered the Government of, in the way of contracts, jobs and stealings that lapped over into future years, no one can tell.

This is the way in which these fellows make the money go whenever they get a chance. They spend all they can, quarrel because they can't extravagant spendtbrifts and plunderers, the very men who acted as a safety-valve upon their treasand then cry thief to keep the public mind off of themselves and to fix it upon the innocent .-Surely, there never was such a pack of political knavcs in any land except our own. If the people of the United States want the

Government administered economically, let them send as few Know Nothings and Black Republicans to Congress as possible. Such fellows make a great deal of fuss about the waste of the public noney, but none is ever voted for any scheme, or job, or contract, or swindle, without their voting for the appropriation, and getting a sbare of the stealage, if there be any surplus of that kind .-They have a band in every plundering transaction, certain, and if were not for the argus eyes of the Democracy ever upon them, they would gobble up all of the public lands in a few railroad schemes, and spend all the revenues of the Government in a few contracts in a single term of Congress. They must be watched, and the only way to watch them successfully is to send as few of them, and as many Democrats as possible to Congress. When they cry out extravagance, corruption, &c., against others, we may be sure that they are planning all sorts of plundering for themselves.

Hospital, Workhouse, and Almshouse Supplies We understand that an ordinance is pending before the General Council, and in the hands of the appropriate committee, baving, for its object, an improvement in the mode of furnishing supplies of provisions, groceries, medicines, &c., for the Hospital, Workhouse, and Almsbouse. It is customary now, and bas been for many years past, for the superintendents of those institutions to purchase at whatever prices they can buy, and from whoever may have to sell, everything they stated intervals, are furnished and allowed, and paid by the Council. It bas been charged that members of the Council, who are in businessselling groceries, drugs and medicines, or other articles-managed to supply these establishments, through the different superintendents, who are elected by the Council, at very high prices; and in of monumenta, memorials and manuals, of obseconsequence the city annually paid a much larger sum for these supplies than they are really worth. The object of the ordinance is to change the mode of making the purchases, and, hereafter, let contracta be made with the lowest responsible bidders, for furnishing the necessary articles wanted by by each establishment. If this were done, the contracts would be made, and the different articles designated previously, and would undoubtedly Board can be interested in any contract with the city. From what we have beard of the provisions of the ordinance, we think it would result beneficially to the city, and we hope to see it passed

In the Statesman, of the 24th inst., appeared a pair of articles, taking us to task in pretty severe terms for misrepresenting the position of that paper, as well as the Hon. Linn Boyd, upon the question of protecting slavery in the Territories. It says that after we had published some extracts rom its own columns, showing that the editor was not a squatter sovereign, and that his paper was anti-Douglas, we inserted the following par-

"The Louisville Democrat claims the Yeoman and Statesman as favorable to Douglas' squatter

duced ahroad, that they were aquatter sovereigns, leading the Douglas movement in Kentucky, demanded a formal denial. If either of these papers had shown half the desire to stand from under the charge of squatter sovereignty made by the Democrat, and to disconnect themselves from the nfluence of such a charge abroad, that the Statesman manifests to escape our misrepresentation, there would have been no misunderstanding about the matter. And while the Statesman is so vindictive against us on this subject, we suggest that it take a turn at the Democrat for charging it with squatter sovereignty, and holding on to the charge, instead of at us for attempting to set it right with-

ut help or hope of reward. But that there may be no further mistake on our part about this matter, we add the following extract from the last issue of the Statesman, to those already given by us, showing emphatically that the Statesman is anti-Douglas, anti-squatter sovereign, anti-sovereign squatter, and anti-Louisville Democrat :

Upon the subject of squatter sovereignty we bave written article after article explanatory of our opinions, and there can be no pretext for any one who reads our paper, and no one else has a right to quote our position, to charge us with any leaning in that direction. We denied the power of the Territorial Legislature to interfere with slavery, and claimed that any unfriendly action on their part towards the institution would be decided unconstitutional by the courts. This was the basis of our argument in favor of the suffi-ciency of Judicial protection in the Territories.— It was because of this doctrine we condemned the Freeport speech of Mr. Douglas. The Louisville Democrat understands us well, and will not claim our concurrence with it upon this point.

And, now that we have set the Statesman right, word about the Courier. The Statesman represents us as advocating the passage of a slave code by the next Congress, and as claiming that the Hon. Linn Boyd is for the same thing. We formally deny the charge at first sight, and say that we advocate no such thing, and never said that Mr. Boyd did. In another article in our paper of this morning, we state what our position s now, and always bas been, upon the subject of Congressional protection to slavery in the Terri-

ories, and we bave it from good authority that Mr. Boyd agrees with us, the opinion of the Statesman to the contrary notwithstanding. Will the editor of the Statesman read the article we refer to in our issue of this morning, and correct his gross misrepresentation of our views?

If we understand the position of the Statesman rom the articles in its last issue, there is but little difference between that paper and the Courier upon the Territorial question, provided the Statesman will come square up to what it insinnates and almost says. There is either a mighty climbing down from the first position assumed by or else we as well as others, most wofully misunderstood him. Indeed, if the Statesman will no longer bold to the it the power to destroy, and will abandon a few that when we see another issue of the Statesman, to be able to say that we are together contending for a fundamental principle of vital importance to the South, and that we shall bear no more about antecedents from a suondam member of a Know Nothing lodge, now presiding in good Democratic habiliments over the Statesman, against a former brother of the order, who, like bim, has bonestly recanted, but who has much less to do with the editorial columns of the Courier than the suggester of antecedents has with those of the Statesman. The less the Statesman says about the antecedents and standing of editors the better.

THE HISTORY OF FREEMASONRY IN KENTUCKY, BY ROBERT MORRIS, GRAND MASTER. - We find upon our table this work, which will, undoubtedly, command the attention of every member of the ancient and honorable craft. It is the first work of a historical character ever published in the United States on the subject, and will be especially valuable in Kentucky, where the fraterity bave ever been both numcrous and bighly respectable. It is, evidently, the result of indefatigable industry, careful investigation, and a profound entbusiasm for the theme on the part of the author, who is known among "outsiders' as a sort of "representative man" of the fraternity. The book has the further claim upon Ken

tuckians, that the entire work is got up in onr own State. It is published in Louisville, by a Although this work adopted the unpretending

title of a bistory of Masonry in Kentneky, it unites all the elements of a general history of Masonry. It contains a current history of cotemporaneous events in other States and countries, abstracts of bistorical occurrences bearing npon Masonry, of legislative acts, of chapters, conventions, convocations, consistories, councils, colleges, charters and charities, of encampments and balls, of lotteries and libraries and lodges, quies and officers, of persecutions and processions, of schisms, seals, schools and ctatistical tables, of Washington, Wooster and Warren, of battles and biography, of everything that a man does know, or may, might, could, would or ahould know of Masonry-in a book.

In an antiquarian point of view, this book will have considerable interest for the historical soboldelivered as wanted, and at prices and of quality ar. Editors Louisvills Courier: The interest in the races increases daily. The ladies' stand has been filled every day. The entry box was opened last night at 8 o'clock, at the Phenix Hotel, and only six entries were found, the smallest number of any day since the commencement. Ford, Harper, Grinstead, Clay, Lawrence, and Richards, were the entries. were the entries. Harper and Grinstead were the favorites, the former having the choice. Harp-er's friends stuck to bim to the last moment, but "The Louisville Democrat claims the Yeoman and Statesman as favorable to Douglas' squatter sovereignty, and, as yet, we have seen no formal denial of the charge by the editors of these papers. They are quoted, outside of the State, as squatter sovereigns, and they don't take any notice of it. Clear your skirts, gentlemen."

To this charge, we plead not guilty, by any means, and assign, as a reason, that when weattempted to set the Statesman and Yeoman right against the charge of the Democrat that they were squatter sovereigns, neither of them, by a formal denial of the charge, came to our belp.—
They did not seem to think that the direct charge of the Democrat, and the specific impression produced ahroad, that they were aquatter sovereigns, Richards' rider, the whip and spur being the weapons used. Harper, however, won the beat by a length, running with a steady pull. Richards 2, Clay 3, Lawrence 4, Greek Slave 5, and Ford last. Time, 1:46%.

Betting was now all in tavor of Harper, with Grinstead's entry placed second.

Grinstead's entry placed second.

SECOND HEAT.—At the call, each nag seemed anxious to go without orders, and some bolting was done by those eager to get the start. The judges, however, determined to give each one a fair go, and refused to allow any advantage. At length they got off in a bunch and made the first turu all together, with the Greek Share leading: Harper and Clay contending for the second position. Herald Gossip about Forney and Douglas. [Special Dispatch to the Cincinnati Gazette.] BALTIMORE, May 20 The New York Herald bas a dispatch from Philelphia, saying.

Some three weeks since, Hon. S. A. Donglas pent almost an entire night at the house of Mr. forney, in Philadelphia, discussing the course to be taken as to the Charleston Conventiou; Mr. ouglas arguing in favor of going into that Con-ention, and submitting to its action, while Mr. orney declared that he would bave nothing to do with it, and would fight any one nominated by that Convention, even Douglas bimself. Mr. Douglas finally asked what he (Forney) would advise him to do, to which Mr. Forney said that if ne were in his (Douglas') place, he would go to Chicago and announce himself as a candidate for the Presidency, in the same manner that town constables in the Western towns announce them-selves for office, and pay no attention whatever to the Convention, and let a Convention meet and ominate a Vice President to run with him, and rust to the result. Douglas' opinion all the way brough was that it was his best chance to go into the Charleston Convention, and abide its results. Forney declared that he was going to fight the Republican party and the Administration party, considering, he said, both of them the essence of corruption, and feels sanguine that he will draw the Democratic party back with him. He also deed, if the Statesman will no longer bold to the absurdity that the power to protect carries with it the power to destroy, and will abandon a few would make next October. HORRIBLE MURDER .- We announced the other

day the terrible suspicion entertained against a certain party lodged in the jail at Prentiss; it is fully verified. The murderer, named Samuel Moore, and his victim, David Dunbar, brother to Hugh C. Dunbar, billiard saloon keeper on Adams street, were engaged upon a trading boat down the river near Napoleon. Some days ago Dunbar disappeared very suddenly, and suspicion at once becoming rife, attached itself to his com-rade, for some cause not yet explained. Moore was seized at Prentiss, and incarcerated in the jail at that place, there to remain until the proper investigations should be made. The J. G. Cline, en her up-trip, saw a barrel floating in the water, which the Captain concluded to save. They picked it up at Gaines' Landing, and brought it to Prentiss; upon opening the barrel a horrible spectacle revealed itself. A human body with its head masbed and cut in a most ghastly manner, as if by repeated blows of an are or hatchet.— Several persons present identified the body as that of young Dunbar. The remains were brought

nto the circumstances connected with the death of Miss Mattie Butler, of North Adams, Mass., has of Miss Mattie Butler, of North Adams, Mass., has been progressing for a week, and has been very thorough and searching. The developments are of the most remarkable character, and if anything could deepen the gloom which surrounds this and affair, it is the knowledge of the fact that the reputation of the nnfortunate and erring girl was needlessly compromised! The investigation goes needlesaly compromised! The investigation goes to abow that her death was caused by inflammation of the bowels, or, as it is medically called, pnerperal peritonis—that abe was not pregnant, and that the doctors who attended her, mistaking her aymptoms, formed an erroneous diagnosis, which was strengthened by the admission of the proportions of vicinity of the strengtheneste virit that there had heen an improper which was strengthened by the admission of the unfortnesse girl that there had been an improper intimacy with Littlefield. The operation which was performed upon Miss Butler just previous to her death, only aggravated her sufferings needlessly, and her dying words were: "I cannot believe I am in the family way, although the doctors say so—there has been no chance."

Littlefield, also, before he fied, persistently stated that his intimacy with Miss Butler could not have produced this result. The post mortem cramination developed the fact that the case has

not have produced this result. The post mortem examination developed the fact that the case has been mistaken, but rather than acknowledge a blunder which, under the peculiar circumstances, and with the symptoms which manifested themselves, was material, the attending physicians, thinking to save their own reputation, prevaricated, and told the family of the deceased that they had found things "as they expected!" The case, in all its aspects, is probably without a parallel in all the records of medical science.

The jury have not yet returned their verdict, but there can be little doubt that it will be, that death was caused by inflammation of the bowels.

The fact of Prince Windsachgraiz baving bee dispatched from Vienna to make concession to Russia, which in the eyes of some diplomatiats can mean nothing less than a consent to all wher to do what she pleases in European Turkey, has been subject of comment.

In 1955 we had a war with our neighbor on the Kansas question. The editor of the Democrat, however, was con quered only and not subdued. He kept quiet and watered his opportunity for revenge. His god D ugles, le bis celebrated speech at Freeport I line's, on the 27th of August last, laid the foun. dation for our neighbor's revenge, in the following words -

IN MY OPINION, THE PEOPLE OF A TERRITORY CAN DT LAWFOL MEANS, EXCLUDE SLAVERY BEFORE IT COMES IN AS A STATE.

THE PEOPLE OF A TERRITORY HAVE THE LAWFUL MEANS TO ADMIT IT (SLAVERY) OR EXCLUDE IT. AS THEY PLEASE, FOR THE REASON THAT SLAVERY CAN N TEXIST A DAY OR AN HOUR, ANYWHERE, UNLESS EUPPORTED BY LOCAL POLICE REGULATIONS, FURNISH-ING ELMEDIES AND MEANS FOR ENFORCING THE RIGHT TO BOLD SLAYES. HENCE, NO MATTER WHAT MAY BE THE DECISION OF THE SUPREME COURT ON THAT ABSTRACT QUESTION, STILL THE RIGHT OF A PACPLE TO MAKE IT A SLAVE TERRITORY OR A FREE ERRITORY IS PERFECT AND COMPLETE UNDER THE

This position suited our neighbor. He had re pudiated that provision of the Cincinnati platform which pledged the Democracy to admit a State with or without slavery, npon its application for admission with a Constitution republican in makers of that platform. He resolved, therefore, to try a second repudiation, on another branch of the slavery question, as suggested by Donglas' Freeport speech: that is to assert the lawful power of a Territorial Legislature or the inhabitants of a Territory, to exclude slavery at any time before the admission of the Territory into the Union as a covereign State. He thought that he might win on this second squatter sovereignty plank if he had lost on the first. He, therefore, put his shoulder to the Douglas wheel, set in motion at Washington last winter by those who supposed that the Little Giant would go to the Charleston Convention as a delegate only, and who designed to give him as much strength as possible under the belief that he could dictate the nomination, and that his power would be used for the choice of those who elped him most to acquire it.

To make the Donglas movement progress in this State, however, it was necessary for our neighbor of the Democrat to connect with it less odious and more potent names than his own; hence he published to the world that the Hon. Beriah Magoffin, the Democratic candidate for Governor in Kentucky, occupied the position of Judge Donglas on this question, and supported the dootrine of squatter sovereignty. He also

the dootrine of squatter sovereignty. He also gave it out that the Frankfort Yeoman was in the same category, and insinuated that other Democratic papers and candidates in the State, including the Hon. John C. Breckinridge himself, were squatter sovereigns, and the advocates of the heresy promulged by Douglas in his Freeport speech.

The design took pretty well at first, and it was heralded all over the country that Magoffin, as the leader of the Democratic ticket, and as the embodiment of the views of the Hon. John C. Breckinridge, was heading the Douglas movement in Kentneky. Our neighbor of the Democrat began to crow, and said he would support Mr. Breckinridge for the Presidency, if he were nominated. He frequently returned thanks to subscribers, whom, he said, were pouring in for his paper, and, in few words, attempted to astonish the "world and the rest of mankind," with the encess of the Douglas movement in Kentneky.

The people, however, soon began to make it evident that this Douglas movement was not as

The people, however, soon began to make it evident that this Douglas movement was not as powerful anywhere else in this State as it was in the manifestations of the Louisville Democrat .-And then, too, it leaked out that Douglas would go to the Charleston Convention as a candidate r the Presidency, instead of a delegate to nom. FAMILY SEWING MACHINES inste somebody else. This protest of the Democ racy of the State, and this disclosure of the designs of Donglas, were awful blows to our neighbor of the Democrat. The people were against him, and the politicians and editors who might have stood by him, if Douglas had gone to Charleston as a delegate only, were bound to de-

DAILY COURIER the misrepresentations of Kentucky statesmen, candidates, and newspapers, by the editor of the candidates, and newspapers, by the editor of the Democrat, for the purpose of bolstering up his heretical position, much longer deceive anybody at home or abroad. The whole thing will be understood very soon, and our Douglas-mad neighbor will be left almost alone to austain a position at war with every sound principle of the Democratic creed.

> neighbor of the Democrat has gotten himself, by Conrier. This is certainly very unjust. Our pohas been consistently maintained. We contended Foulard Silks and Embroidered Swiss. powers of the Federal Government, must secure | corner Fourth and Market streets. adequate protection. We hold to that position A WORD TO THE LADIES—Especially to those we understand one another the hetter. We shall, therefore, repeat our position upon

this Territorial question, and if our neighbor of the Democrat finds that all sound Democratic candidates and respectable Democratic editors in the State are found to be with us when they once understand the question and curselves, he must not fly into a rage with us for being right, but must plame himself for being wrong. He must consider himself whipped in this fight just as he was n the kansas battle, and make up his mind to ubmit as gracefully as possible to a defeat, however disgraceful, which he brought upon himself, by waging an unnecessary war for ambitions pnroses, against the Democracy and the South. And as our neighbor is getting the subscribers that he says he is, we hope that his prosperity will keep him in a better humor, for really the acessions we are daily getting to our lists from the

1. Congress has the power to protect slavery in the Territories, but has not the power to destroy or impair.

3. The inhabitants of a Territory cannot, by unfriendly legislation, either positive or negative, exclude slavery from a Territory, during the Territorial condition, but may exercise the power when they come into the Union as citizens of a sovereign State.

4. It is the duty of Congress to protect the rights of slaveholders in a Territory whenever FLUDGE OURSELVES TO THE CORDIAL SUPPORT OF ITS the Territorial authorities refuse, and the Federal courts fail to afford adequate protection.

Our position is thus briefly stated, and we trust that we will not be longer misunderstoood by anybody. And against this position, occupied as we believe it substantially is, by every sound Democrat now upon the stump in Kentucky, and by every respectable Democratic editor at the head of the press, except our neighbor, we leave the editor of the Louisville Democrat to do battle savagely had at us. He rages and foams like a for Douglas, squatter sovereignty, and practical man ac. We are, nevertheless, in a first-rate Abolitionism, until he kills himself, his cause, and humor ourselves, and expect to continue so. It everybody connected with his heresies in Ken-

The Cincinnati Enquirer's Rumor A Cynthiana correspondent of the Frankfort editor of the Observer and Reporter, and carried frem Frankfert to Cincinnati by Mr. Hogan, anbut supposing it to be true, it affords some explanation of the miscrable mistakes, misrepresentations, and falsehoods, the Cincinnati Euquire

gerite of the Enquirer has been relying upon the Opposition in Kentucky for information concerning Democratic sentiment. That is just about as much as we could expect of an editor who went for the Wilmot Proviso, opposed the repeal of the Missouri restriction, and now contends that the squatters of a Territory have a right to abolish slavery when they please, while professing to be a Democrat, and a friend to the South. Such an Abolition wolf in Democratic sheep's clothing, and such a negropholite in the garb of a Southern philosopher, ought to get information concerning the Democracy of a Southern State from the Op position, and from no other source.

HOLT FOR PRESIDENT .- Some of cur Kentncky friends seem to be for Guthrie and others for Breckinridge for President. Suppose they compromise by uniting on Hon. Joseph Holt, the present efficient and popular Postmustor General. If you want an economical administration, Holt is the man; if you want an intellectual administration, Holt is the man; and if you want an hon est and scrupulously honest administration. Hold is emphatically the man. No man living would dare look in the face of Joseph Holt and propose a dishonest act. He is just the man to restore the Government to its original Washingtonian purity and simplicity. — Westport (Mo.) Star.

A first-rate idea, and we are rather disposed to go in for it, as we know Mr. Holt to be one of the first men in the nation and eminently fit for the high position named. But there is one serious difficulty in the way-Mr. Holt is such a strong form, and had, in turn, been repudiated by the Guthrie man himself that he could not be influenced by any possible state of case to allow the use of his name in such connection.

EMIGRATION.—There arrived at the port of New York, on Friday last, three thousand seven hun-dred and aeventeen emigrants, all belonging to the laboring classes. They filled eight ships. Seven hundred of them were Mormons. The N. Y. imes says:

"Now if a newly imported African, who is utcannot understand a word of English, is worth to a Georgia planter five hundred dollars, these intelligent, hard-working mechanics and farmers. who will require no overseer or instructor, and whose services can be made immediately availa-ble, must be worth to themselves at least double that amount, so that the actual addition made to About three thousand more emigrants are on

OHIO WHITE SULPHUR SPRINGS. ANNOUNCEMENT OF THE PROPRIE-

ON THE 1ST DAY OF JUNE.

The improvements of 1559 have been large, enabling the proprietor to accommodate from five to six hun-ired guests. Among these improvements may be mentioned large and elegant hotel, new cottage row ldings for amusement and recreation, extensive bath uses, a steam laundry, &c., &c. Upon the estate there are five Springs, all within the lawn, four of which, the White Sulphur, the Chalv-Brate, the Magresian, and the Saline Chalvbeate, are decidedly medicinal, whiist the fifth is remarkable for

THE WHITE SULPHUR is a beautiful Artesian fountsin, situated near the rocky bank of the Ecloto river. At the depth of 160 feet be low the fevel of the Scloto, tlews the remarkable stream of sulphur water which supplies this Spring. This stream was discovered some 50 years ago by a gentleman who was boring for sait. The water, when reached, at once arose to the surface, and has ever since continued to flow, during all seasons, without change or abatement either in quality or volume.

MEDICINAL PROPERTIES. to quantity, time of drinking, continuance, &c., and der this systematic plan the cures were numerous gratifying

gratifying.
THE WHITE SULPHUR WATER is peculiarly serviceable in those disorders of the Live and Stomach which so often afflict gentlemen who hav been too closely confined to business, and persons of se dentary habits.

THE CHALYBEATE SPRINGS

are permanent tonics. Their effects upon broken-down and debilitated constitutions have been not transient but lasting, giving to the blood a new vitality, and to the person new life and vigor.

THE MAGNESIAN WATER is a gentle aperient.

Invelide may rely upon every facility being furnished them which can contribute to health and comfort.

As a delightful resort during the summer months, the Ohio White Sniphur Springs have no rival in the West, and but few in the United States. The location is peen-liarly healthy; the Scotob here is a rapid, rocky stream; the "Oliff Limestone," a formation hundreds of feet in thickness, through which the river cutsits way, is everywhere either at or near the surface; the grounds of the estate are beautifully undniated, and interspered with numerous ravines which carry off silf the superfluous water, thus rendering the soil dry and the atmosphere free from that hundity so prejudical to health: these circumstances, taken in connection with the attitude of the place, about 1,000 feet above the level of the ocean, make the locality as free from malarlous influences as a mountain region.

The Spring property consists of \$20 acres of land, one a mountain region.

The Spring property consists of 820 acres of land, one hundred of which is covered by one of the most beautiful groves in Ohio. This woodland is handsomely laid off into walks and drives, one of the latter being two wiles in extent.

Bathing here by the plan adopted is brought into fair competition with that at naturally Warm and Hot Springs. The water is heated in the bath tuo by steam pipes; the heat not being raised high enough to precipitate its saits, it is by this system applied to the surface of the bather without the loss of its saline ingredicts.

A Livery, well stocked with horses and carriages, is attached to the Springs.

SOUTHERN PACIFIC RAILROAD COMIY,

A LL Stockholders who have not made the loan or paid up installments, must now make the advance of 50 cents per share upon their stock, and send their certificates to D. O. Wilder, Secretary, at Marshall, Texas, for a reissue. The loan made and installments paid into my hands have protected those who have paid it, and secured thereby the opportunity to all for a temporary period of being also protected by now promptily paying. All who fail or neglect to do so now, must and will be cut off as clogs to the enterprise! I have no alternative left, as the President of the Company, but to enforce this policy. Those who have paid up have done so with this express and unconditional understanding, that all should be made to pay—thereby enabling the President and Directors to free the Company of litigation and every impediment to the successful prosecution of the enterprise—by a compromise. A new policy has been inangurated. Salaries and expenses have been reduced from \$80,000 per annum to \$130,000. The whole stock liability has been reduced one-half in amount without injury to any stockholder who shall pay np—reduced to the actual value of the property of the Company, without estimating the rights and franchises at anything.

We must pay promptly our debts, and we must provide the means to construct the road, in order to reap the profits of the enterprise and secure the grants made by Texas to our company.

The company propose to raise the money by the sale of stock at par to purchase the labor to construct the road. Stockholders have the exclusive privileges of purchasing the stock for 90 days, from April 6th, 1859. All persons are cantioned against buying or trafficing in the stock of the company, which shall not have been re-issued from the Marshall office, and bearing date since the 6th of April, 1859. The press, generally, friendly to this great Southern enterprise, will please copy the notice, that each and every stockholder shall be fully warned, as they reside in every State, an SOUTHERN PACIFIC RAILROAD COM'Y

OFFICE LOUSIVILLE COURIER, WEDNESDAY EVENING, May 25th. In our weekly report of May 18, we noticed an active speculative demand, and large sales of flour, grain and rovisions at greatly advanced prices. This continued only a few days, and on the 20th the market became demand, and only saleable at material reductions on prostrate condition ever since, though more firmness has been manifested during the last few days in the pro- stock yards: rision market, but sales are limited to mere parcels at about our quotations.
